

TECHNICAL SHEET:

MICRO

MICRO 12V/660CA

MICRO 12V/660CA MOTO

MICRO 12V/760CA

MICRO 12V/1000CA

Ideal equipment to start vehicles:

Gasoline, diesel and utility

MICRO 12V/760CA:

To start diesel engines up to:
 o 250 HP as booster
 o 125 HP without battery

To start gasoline engines up to:
 o 350 HP without battery

Technical specifications:

	MICRO 12V/660CA	MICRO MOTO 12V/660CA	MICRO 12V/760CA	MICRO 12V/1000CA
Model	861001	861003	861002	861011
Reference	861001	861003	861002	861011
Voltage	12 V	12 V	12 V	12 V
Cranking Amps	660 A	660 A	760 A	1000 A
Peak Amps	1750 A	1750 A	2250 A	2960 A
Maximum discharge KW	7	7	11	12
Starting cable length	1,30 m	1,30 m	1,30 m	1,30 m
Cable size Radaflex® Welding	25 mm ²	25 mm ²	25 mm ²	25 mm ²
Automatic electronic charger AC/DC	1,3 Ah	1,3 Ah	1,3 Ah	1,3 Ah
Cable to charge on board of a vehicle 12V	YES	YES	YES	YES
Outlet 12V	16 A	16 A	16 A	16 A
Internal fuse on the battery	YES	YES	YES	YES
Protects the electronic in the vehicle	YES	YES	YES	YES
Type of clamps				

Length:	160 mm	128 mm	173 mm	173 mm
Opening:	35 mm	25 mm	35 mm	35 mm

Description:

Backlit **Voltmeter** (with **push button**) precise and easy to read, indicates the load level, the well-functioning of the charger and the alternator

Plug to charge and Outlet 12V, protected by a fuse 16A

Logistic specifications:

Net weight	9,5 kg	9,3 kg	9,5 kg	11 kg
Size (cm)	37,5 x 11 x 32	37,5 x 11 x 32	37,5 x 11 x 32	37,5 x 11 x 32
Gross weight	11,5 kg	11,3 kg	11,5 kg	13 kg
Size of the packing box (cm)	38,5 x 14,5 x 46,5	38,5 x 14,5 x 46,5	38,5 x 14,5 x 46,5	38,5 x 14,5 x 46,5

The most powerful Boosters on the market

ASSETS

Matchless power & performance:

- o Batteries based on aerospace technology for exceptional, dependable power and life
- o The batteries are designed for extraordinary energy storage and delivery capacity at very high currents

Portable and self sufficient:

- o Light and easy to transport, yet with enough power to get the job done regardless of the condition of the batteries in the vehicle
- o Extra long cables give you the flexibility to place the unit on the ground, allowing for one man operation

Electronic protection:

- o Designed to protect the electronic equipment on the most sophisticated vehicles

Reliability - Selection of first quality components:

- o **Case:** one piece polyethylene, virtually unbreakable with a lifetime warranty
- o **Internal Fuse:** to protect the battery against short-circuits and power surges
- o **Batteries:** type AGM/MF 'made in USA', easily replaceable
- o **Cables:** **Radaflex®** 'Welding' with double isolation for optimal current conductivity and maximum flexibility. Custom selections available.

AVAILABLE OPTIONS

o 'Switch & Buzzer'

Part number: 860019

No current on the clamps while connecting on the vehicle. Protection against accidental short-circuits and audible signal indication in case of inversion of polarity.

Buzzer

Switch

o Starting cables 'triple wraps'

Part number: 860049

1,90 m instead of 1,30 m

o External Air Compressor

Part number: 860012A

'Made in USA' 12V 8,3 bar

The connection is made by the cigarette lighter plug of the unit, a flexible of 2,5m makes the use of it easier.
